Thanks Jeff! This meeting should be really useful, and I appreciate your support.

Just to let you know, Bob Frederick asked me in the staff meeting where that manuscript of mine is....

Doug:

Following the Bristol Bay Assessment Peer Review Meeting in Anchorage, on Friday morning, August 10,

we will be bringing together a group of folks to discuss climate change and salmon. This effort is separate, but related to, our Bristol Bay Assessment. Our purpose is to get expert feedback on our conceptual diagram, identifying the most important pathways, evaluating our literature review, and providing guidance on manuscripts planned. We are hoping to meet with people from government and non-government organizations.

Might there be a worthy NOAA scientist who might want to participate in our informal meeting on August 10? Current participants include: Rebecca Aicher, Joe Ebersole, Jeff Frithsen, Phil North, Glenn Suter, Kate Schofield, and Jim Wigington from EPA; Mike Wiedmer; Phil Brna and potentially Charla Sterne from FWS; Steve Gray from USGS; potentially Sarah Trainor and Philip Loring from the UA-Fairbanks; and potentially Steven Zemcke from the Forest Service.

Let me know what you think.

Jeff
